Profile

Web Developer with hands-on experience building responsive web applications using React, Next.js, JavaScript, TypeScript, Node.js, and Tailwind CSS. Previously worked as a nurse, developing strong communication, attention to detail, problem-solving, and patient-focused thinking in healthcare environments. Interested in this role because it combines web development with healthcare technology, user experience, and practical solutions for patients and doctors.

Technical Skills

Full-Stack Development: React, Next.js, JavaScript, TypeScript, Node.js, HTML, CSS, Tailwind CSS, API Design, MongoDB, Prisma ORM, CRUD operations.

Quality & DevOps: Jest, React Testing Library, Playwright, Git/GitHub, Vercel Deployment, Auth0, Stripe Integration.

Tools: Vercel AI SDK, AI-assisted debugging, Structured Prompting, Figma.

Projects

Full-Stack E-commerce Application

Live Demo: [\[link\]](#) · **GitHub:** [\[link\]](#)

Tech stack: Next.js, React, TypeScript, MongoDB, Prisma, Auth0, Stripe, Tailwind CSS, Jest, Playwright, Vercel AI SDK

- Engineered a robust full-stack e-commerce platform featuring secure Auth0 authentication and a seamless Stripe Checkout integration.
- Architected reusable UI components and a scalable data model using MongoDB and Prisma to optimise performance.
- Implemented automated end-to-end testing with Playwright to ensure high reliability for critical user flows.
- Leveraged Vercel AI SDK to deploy intelligent features, enhancing overall user engagement and interface interactivity.

Healthcare Appointment / Patient Support App

Live Demo: [\[link\]](#) · **GitHub:** [\[link\]](#)

Tech stack: React, Next.js, TypeScript, Tailwind CSS, Node.js

- Developed a responsive healthcare management application focused on secure patient data handling and scheduling.
- Designed highly accessible forms and UI elements using Tailwind CSS, adhering to strict usability standards.

- Applied clinical domain knowledge to create intuitive patient-centred user flows for both medical staff and patients.
- Streamlined backend logic with Node.js to improve application response times during concurrent booking sessions.

Experience

Nurse

Healthcare Organization Name

2019 – 2025

- Communicated with patients, families, and healthcare professionals in high-pressure situations with clarity and empathy.
- Managed sensitive information carefully and followed strict documentation and safety procedures.
- Prioritised tasks efficiently in a fast-paced healthcare environment.
- Collaborated with multidisciplinary teams to solve patient-related problems and improve care quality.
- Developed strong attention to detail, responsibility, and user-focused thinking that now support my work as a web developer.

Education and Training

AI Development Courses

Anthropic

2026

AI capabilities, Claude Code, agent skills, subagents, Model Context Protocol, and responsible AI-assisted development.
